WHO WE ARE

About Us

Willdave Laboratories (Private) Limited is a Harare-based specialist in laboratory fittings, rehabilitation and maintenance, and a dependable supplier of scientific chemicals and laboratory equipment.

Every working laboratory depends on dependable infrastructure: water on the bench, gas at the point of use, a sink that resists the chemicals poured into it, and emergency equipment that works the first time it is needed. Willdave exists to supply and maintain exactly these essentials.

We work with schools, universities, clinics, industrial and research laboratories to plan, supply, install and restore their facilities. Our approach combines carefully selected products, practical on-site know-how and responsive after-sales support, so that clients can concentrate on their science.

Purpose & Values

OUR MISSION

To equip laboratories with safe, durable and well-installed fittings, and to keep them performing through responsive rehabilitation and maintenance, so every client can work with confidence.

OUR VISION

To be the first name in Zimbabwe for laboratory fittings and support: recognised for product quality, technical reliability and a service culture clients can depend on.

CORE VALUES

The principles behind every installation

01

Safety first

Emergency equipment and safe installation practice are never an afterthought.

02

Quality

We choose materials and finishes that withstand daily laboratory use.

03

Reliability

We deliver what we promise, when we promise it, and stand behind it.

04

Technical care

Neat workmanship and attention to detail from survey to hand-over.

05

Integrity

Honest advice, transparent pricing and straightforward communication.

06

Partnership

We build long-term relationships and remain available after the job is done.

PRECISION · SAFETY · RELIABILITY

What We Do

From a single replacement tap to a full laboratory refit, we provide a complete chain of services around the fittings and supplies that laboratories rely on.

01

Laboratory Fittings Supply

Water taps, gas valves, laboratory sinks and emergency shower and eyewash stations, supplied to specification.

02

Installation & Fit-out

Professional bench-mounted installation of taps, valves, sinks and safety stations in new or existing laboratories.

03

Rehabilitation

Restoring ageing or damaged laboratories: replacing worn fittings, sinks and services so rooms are safe and usable again.

04

Planned Maintenance

Routine inspection, repair and replacement programmes that extend service life and prevent costly downtime.

05

Scientific Chemicals

Supply of laboratory-grade chemicals and reagents for teaching, testing and research requirements.

06

Laboratory Equipment

Sourcing of general laboratory equipment and consumables to complement your fittings and workflow.

FEATURED

Rehabilitation & Maintenance

A well-kept laboratory is a safe laboratory. Our teams assess, repair and renew fittings so that your facility stays compliant, functional and ready for work.

Laboratory Water Taps

Our laboratory taps are built for the demands of the bench: a clean white corrosion-resistant finish, brass bench-mounting shank, clearly marked control heads and serrated hose-nozzle outlets for tubing and apparatus.

Single Water Tap

Bench mounted, swing gooseneck

- Swing gooseneck spout for easy vessel filling
- Brass shank for secure bench mounting
- Control head marked CW (cold water)
- Serrated nozzle with red protective tip
- Durable white corrosion-resistant finish

Three-Way Water Tap

Bench mounted, convertible rigid / swing top spout

- Three independent outlets from one base
- Convertible rigid or swing top spout
- Separate control head on every outlet
- Serrated hose nozzles with red tips
- Ideal for shared and high-use benches

Gas, Sinks & Safety

Two-Way Gas Valve

Two way 90 degree, bench mounted

- Two outlets set at 90 degrees from a single bench-mounted base
- Colour-coded yellow handles and red outlet tips for clear identification
- Brass shank with polymer body for secure, tidy installation

Laboratory Sink (PP)

Polypropylene, compact bench sink

- Exterior dimension 430 x 330 x 285 mm
- Interior dimension 385 x 285 x 260 mm
- Chemical-resistant polypropylene with smooth, easy-to-clean interior
- Supplied with accessory fittings pack

Emergency Shower & Eyewash Station

Combined, floor mounted

- Overhead shower head activated by a pull rod
- Dual-nozzle eyewash bowl with protective caps
- Safety-yellow finish with green emergency signage
- Installed where immediate first response is required

THE TEAM

Our People & Approach

Behind every installation is a small, dedicated team that combines technical knowledge with a service-first attitude. We stay close to our clients from the first enquiry to long after hand-over.

David Nyamidzi

DIRECTOR · MANAGEMENT

Strategy, client relations and quality assurance

Anna Dembetembe

DIRECTOR · OPERATIONS & CLIENT SUPPORT

Coordination, scheduling and after-sales care

HOW WE WORK

A simple, transparent process

01

Consult

We listen, visit the site and understand the laboratory and its users.

02

Specify

We recommend suitable fittings and provide a clear quotation.

03

Install

Our team supplies and fits to a neat, safe and durable standard.

04

Support

Hand-over, guidance and maintenance for lasting performance.

"Quality you can trust on every bench."

Who We Serve

Our fittings and services are specified wherever science is taught, tested or practised.

Schools & Colleges

Universities

Hospitals & Clinics

Research Institutes

Mining & Minerals

Water & Environment

Agriculture & Food

Industrial & Pharma

WHY WILLDAVE

Reasons clients choose us

Specialist focus

Laboratory fittings are our core business, not a side line.

Complete service

Supply, installation, rehabilitation and maintenance from one partner.

Safety-minded

Emergency showers and eyewash stations form part of our standard range.

Practical and responsive

Local presence in Harare means quick quotations and site support.

Fit for purpose

Products chosen for durability, easy cleaning and daily bench use.

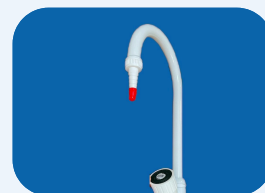

Wider supply

Chemicals and equipment sourced alongside fittings for one-stop convenience.

Our commitment

We commit to honest advice, tidy workmanship and products that perform as described. Whether you are equipping a new teaching laboratory or restoring a busy testing facility, Willdave Laboratories will treat your project with the same care and attention to detail.

Clients & References

A list of institutions serviced to date, provided for reference purposes. From high schools to teacher-training colleges, laboratories across Zimbabwe trust Willdave.
